COMET P33-T PUMP HIGHLIGHTS

- Big mouth valves that effortlessly pass solids and debris.
- Stainless steel motor shaft and wetted parts for increased corrosion resistance.
- Includes pulse dampener to greatly reduce pulsation vibration.
- Simplified cleaning and maintenance of valves with accessible u-bolts.
- Compact footprint for any wastewater truck mount system.
- Sturdy, powder-coated external mounting base.
- Featuring a 12-volt Bison motor for continuous performance.
